

EMINENCE

To whom it may concern

We had the privilege of having Michael Lauts on Eminence as an onboard Engineer representing A&R during our extensive Special Survey, La Ciotat 2022.

Michael Took full leadership of the complete tail shaft survey from start to finish. He assisted in the complete overhaul of both thrusters and the removal and installation of the stern door and hydraulic rams. It was only because of Michael that we departed the shipyard on time with no issues.

Michael's Knowledge is undeniably extensive of all systems onboard; he works Meticulously to the highest of standards and always with a positive attitude.

He deservedly has gained a high level of respect from the crew and the greater shipyard, and I could not recommend Michael enough. He is an asset to any yacht undertaking any work in the shipyard, and I look forward to working with him in the future.

Michael Schrodter

Regards
